

## NEW PRODUCT DISP-PUMP

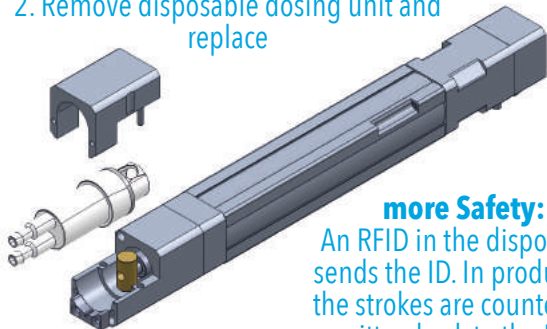

servo-driven drive  
for individual dosing devices

pneumatic drive  
with adjustable stroke limitation

**NEW: No Cleaning needed -  
simply replace product-contacting parts**

1. Remove the housing cover
2. Remove disposable dosing unit and replace

**more Safety:**  
An RFID in the disposable  
sends the ID. In production,  
the strokes are counted and  
written back to the RFID

## SPECIALIZED FOR YOUR CHALLENGE
